

Informationen zu den Referenten

Referent	Matthew Dillon
Vita	<p>Matthew is internationally acknowledged as a passionate advocate for green cities and with regard to his expertise on urban green infrastructure design and implementation. He has a diverse background incorporating disciplines of architecture, landscape design and sustainable building design over a thirty year career, however since 2008 his work has specifically focused on green roof policy development, design and advocacy.</p> <p>In 2009 Matthew was responsible for writing Australia's first Green Roof Guidelines for the City of Sydney and in 2013-14 formed an Advisory Panel to assist in the development of a Green Roof Policy. The policy was accepted in 2014. He has designed several green roofs and living walls since 2011.</p> <p>Matthew has presented at congresses in Mexico, France, China, Japan, Australia, Singapore, Columbia & Malaysia on topics including Water Sensitive Urban Design; Mitigation of Climate Change Impacts; Policy Development; Australian Case Studies; Green Infrastructure Transition and Retrofit Project Management.</p>
